1. In the beginning was the Word, the SOUND

OM... A U M ...

The Universe is still resonating.

OM... A U M ...

Just listen.

OM ... A U M ...

Be still and aware of the WONDER

OM ... A U M ...

which some people call GOD

OM ... A U M ..

or you might say simply "THE UNIVERSE"

OM ... A U M ...

You are part of this WONDER

OM ... A U M ...

Indeed, you are a WONDER yourself

OM ... A U M ...

And this whole wonder is coded by 5 simple Letters

OM ... A U M ...

The UNIVERSAL CODE:

A - E - I - O - U

our 5 vowels

Is the Universal Code that simple?!

YES.

I was reminded of this wonder by a lucid dream. A lucid dream is a dream in which you are aware that you dream while you are dreaming.

This technique is as old as mankind. The tibetans have taught it as dream yoga and modern scientists of the University in Twente had put a complete tutorial for free how to learn lucid dreaming at www.lucidipedia.com

In july 2010 I realized that I was dreaming as a stream of symbols flow in vertical sequences from above into my brain.

They caused a wonderful feeling like bathing in a God's soup. For a while I just enjoyed this stream.

I recognized repeating sequences. And as I was aware that I was dreaming I could manage to wake up to put these symbols to paper

2. The process of decoding wasn't difficult.
There were only 5 repeating symbols.
One pretty much looking similar to our "e"

So the others were easy to associate with the other vowels

as A

as I

as O

.

and

as U

And it made complete sense, because our DNA has 4 different Amino acids to be the "Alphabet of life" and the RNA 3 identical Amino acids and one different which means all in all 5 "letters" to be the code of our whole life.

5 Amino acids - 5 vowels

Chance?!

Of course not!

Just another beautiful proof how simple and brilliant life is.

3. The "letters" of life are the 5 vowels but to be able to "read" the book life we have to know the "words" as well.

The "words" of our DNA are made of triplets of amino acid pairs. I will not go into details of these biological facts. Anyone who is interested can find the scientific background in many books.

But when we put 3 vowels in triplets together and tone them an interesting resonance phenomenon happens:

Something deep inside of us "remembers"... Remembers that we are not only powerless puppets but Co-Creators.

We can sound as well.

A for opening our hearts...

E for creating healthy boundaries

I for strengthening our individuality

O for being able to wonder like a child

and U for being connected with Mother Earth

And every triplet is a special combination.

A - e - i represents a different energy as I - o - u.

Tone it and FEEL it.

The next step is a bit more difficult to follow and it took me about a month to find the connections to the 260 different energies of the Mayan Calendar.

But because I already spend 7 years of "translating" the old Mayan symbols to symbols which resonates with our times finally the result is a conversion table for toning to be founded at www.UniversalPeaceCalendar.com at the bottom of "explanations".

4. Putting all pieces together the Universal Peace Calendar ends up with having a sequence of 3 vowels to tone and to tune in the energy of each special day.

Try it some days in a row and you will FEEL how much easier it is to get in tune with the Universe.

**A whole movement called CHWAP :
CH-ant W-ave A-round the P-planet
spreads by mouth to mouth propaganda on facebook.**

And you can easily join.

Here are the dates, symbols and toning sequences until 2012.

Wherever you are you can chant by yourself or in groups to be reminded of the wonder each one of us IS and the wonder LIFE itself is and to be more grateful about being on planet earth at this special time.

Hopefully CHWAP helps to create a resonance field around our planet to evolve easier as a human family.

Be blessed and enjoy the Universal Peace Calendar

**You find the actual leaves of UPC
with the daily triplet of toning at**

www.UniversalPeaceCalendar.com

5. This last chapter is a joker I want to give to you:

**You can find the tone of your birthday which will remind you
WHY you are here on earth at this special time.**

**Our divine heritage of 13 Helixes was reduced to only 2 remaining
strings as our scientists know our DNA.**

**But there have been 12 Helixes and when they are activated a 13.th
string is connecting all the other with the shape of an 8.**

**Details you find in Kishori Aird's book "DNA demystified 1 - a
practical guide to Reprogramming the 13 Helixes".**

www.kishori.org

Toning is another marvellous way to help reactivating our 13 Helixes.

**For finding your own tone go to www.Calleman.com
and find your Mayan Birthsign.**

**E.g. my birthday is March 8 1960 and this is 2 Cauac
as Mayan Birthsign.**

**At my website www.UniversalPeaceCalendar.com
at the bottom of the page "explanations" you find now
the conversion table which toning sequence is correlating
to your Birthsign, e.g. my 2 Cauac correlates to I - i - o**

Now I do have not only the new Larom-symbol ETERNITY

for my birthday but also the toning sequence I - i - o

A dream came true in the best sense of the word.

**"If just one person dreams
it remains only a dream
but if more people join the same dream
it's the beginning of a new reality"**

Friedensreich Hundertwasser

**So join the dream, spread this ebook and CHWAP,
learn the technique of lucid dreaming and enjoy LIFE -**

it's FREE!

**The next 4 years determine how the next 1000 years
will be on this planet.**

So let's put our efforts together
